ABOUT ME

I am a motivated and detail-oriented student with a strong interest in Cybersecurity and Artificial Intelligence. I have a solid foundation in data structures, logic design, and analytical thinking. I enjoy solving complex problems and exploring how secure and intelligent systems are built. I am committed to continuous learning, staying updated with emerging technologies, and developing practical skills for real-world challenges.

EDUCATION

- Current**
-  **B. SC. IN SOFTWARE ENGINEERING** DAFFODIL INTERNATIONAL UNIVERSITY
-  **HIGHER SECONDARY CERTIFICATE** QADIRABAD CANTONMENT SAPPER COLLEGE
Field of study Science | Final grade 5.00
-  **SECONDARY SCHOOL CERTIFICATE** QUADIRABAD CANTONMENT PUBLIC SCHOOL
Field of study Science | Final grade 5.00

SKILLS

-  **Microsoft / Office Tools**
 - Microsoft Office (Word, Excel, PowerPoint, Outlook)— Advanced
 - Google Workspace (Docs, Sheets, Slides, Forms, Drive) – Advanced
-  **Programming Language**
 - C, Python, Java, JavaScript
 - Proficient in Data Structures & Algorithms with analytical problem-solving ability
-  **Web Development**
 - HTML, CSS, and JavaScript for building responsive web pages
 - Frontend development using React.js
 - Backend development using Node.js and Express.js
 - Familiar with REST APIs, Git, and GitHub for version control and collaboration
-  **Graphics Design**
 - Adobe Photoshop – Intermediate
 - Adobe Illustrator – Intermediate
 - Canva – Intermediate
 - Understanding of visual design principles and content creation
-  **Networking**
 - Networking fundamentals (OSI & TCP/IP models)
 - IPv4/IPv6 addressing and subnetting
 - Routing & switching basics (Static, RIP, OSPF)
 - Network services (DHCP, DNS, NAT)
 - Basic configuration and commands
 - Basic network troubleshooting
-  **Cybersecurity**
 - Linux fundamentals
 - Linux command line basics
 - Network scanning (Nmap)
 - Authentication and authorization
 - Access control principles

● Soft Skills

- Communication
- Teamwork
- Problem Solving & Analysis
- Adaptability
- Time Management
- Critical thinking

PROJECTS

● Healthcare Management System

Technologies: C, Java

Developed a system to manage patient records and appointments. It allows adding, updating, and searching patient, generating prescription data using C for logic and Java for OOP structure.

● Banking Management System

Technologies: Java

Built a console-based banking system with features like account creation, deposit, withdrawal, and balance checking using OOP concepts.

● Online Shopping Platform

Technologies: JavaScript, React.js, Next.js

Created a responsive e-commerce website with product listing, cart system, and basic checkout using React components and Next.js for routing and performance.

CERTIFICATES

● Machine Learning using Python

Learned Machine Learning using Python – Simplilearn SkillUp (Basic Certification)

● Web Development

Web Development Course (HTML, CSS, JavaScript, React.js) – Programming Hero (Completed)

VOLUNTEERING

● Cyber Security Awareness Day 2026

Organized and facilitated CTF competitions, project showcase events, and idea presentation contests, as well as seminars featuring renowned cybersecurity experts in Bangladesh.

LANGUAGE

● **Bengali (Bangla)** – Native proficiency in reading, writing, and speaking

● **English** – Fluent in reading, writing, and communication for academic and professional purposes
